SUMMARY

I am a passionate and dedicated Software Engineering student with hands-on experience in web development, database management, and full-stack projects. Skilled in HTML, CSS, JavaScript, PHP, MySQL, Laravel, and currently advancing in the MERN stack, C#/.NET, Angular, React, and Flutter. I have worked on practical projects including e-commerce databases, WordPress/Shopify stores, and networking setups, which reflect my problem-solving ability and adaptability to different technologies. With strong learning agility, I aim to apply my technical expertise to build scalable applications, optimize business processes, and grow as a professional software developer.
